

REMARKS

The Specification was objected to as failing to provide antecedent basis for the claimed subject matter. Per the Examiner's instructions to overcome the objection, the Specification has been amended to include the subject matter of claims 32, 33, 35, 36, 39, 40, 42, 44, 45, 47 and 49-52 into the Specification. As indicated by the Examiner, the subject matter of those claims is part of the original disclosure.

Claims 32-40 were rejected under 35 USC 112, first paragraph. The Examiner indicated that this rejection would be overcome by insertion of the subject matter of claims 32, 33, 35, 36, 39 and 40 into the specification. Such an amendment to the Specification has been made as described in the foregoing paragraph.

In view of the foregoing amendment, it is believed that the Examiner's objection to the Specification and rejection under 35 USC 112, 1<sup>st</sup> paragraph, have been overcome and that the application is in condition for allowance. Such action is earnestly solicited.

Respectfully submitted,

Robert F. Clark
